

Purely natural oat innovation

It is Finland's unique climate, the knowledge and skills of its farmers, and the ideal soil and growing conditions that make Finnish oats a powerful and sought-after product.

At Fazer, we have been recognised for our food and ingredients expertise for generations. Now we have utilised our generous supply of Finnish oats, applying traditional bakery heritage and innovative wind-shifting technology to a patented extraction process. We unlock the nutrient power of oats naturally without any GMO or chemical additives.

The resulting Aurora extracts contain the highest concentration of oat goodness providing good-tasting, neutral-coloured, health-giving ingredients for food, drink and personal care products.

Oat Beta Glucan

The clean and natural taste of Aurora Oat Beta Glucan is ideal for incorporating the goodness of oats into a wide range of foods, drinks and supplements. The high concentration means less is required in the end product to support health claims.

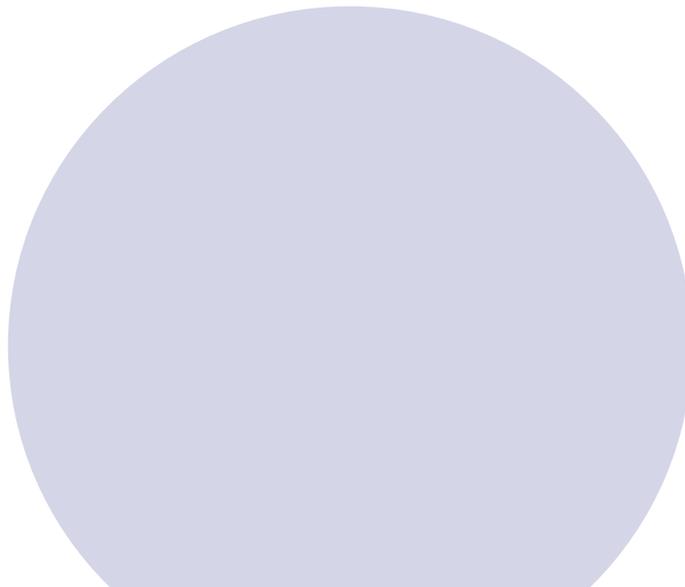

- Recognised heart, cholesterol level and digestive benefits
- Easy to use in a manufacturing process
- Clean tasting with a neutral colour
- Non GMO, made with traceable Finnish oats

Oat Beta Glucan is approved by EFSA for 'reducing blood cholesterol, which reduces the risk of cardiovascular diseases'.

Aurora Oat Beta Glucan is easily added to the recipes in the manufacture of:

- Biscuits and snack bars**
- Breakfast cereals**
- Muesli and porridge**
- Smoothies**
- Drink mixes**
- Sweet and savoury bakery products**
- Pasta**

Providing essential nutrients and sustaining energy beneficial for wellbeing

Oat Protein

Aurora Oat Protein provides an easy-to-use high-quality protein, perfect for enriching your food and drink products. The 30% Oat Protein concentrate is extracted directly from oat bran to be an effective and powerful plant protein source.

- Naturally balanced amino acid profile
- Suitable for dairy-free and vegan diets
- Mixable – smaller particles make it ideal for beverages
- Low oil concentration – products last longer on shelf
- Non-GMO, made with traceable Finnish oats

Aurora Oat Protein is a perfect ingredient in the manufacture of:

- Sports nutrition**
- Meat-free meal ranges**
- Hot and cold drinks**
- Cereal bars and bakery products**

Oat Oil

Aurora Oat Oil is a natural way to add oat benefits to cosmetic and personal care products. The versatile ingredient naturally moisturises and soothes skin as well as strengthens hair, and can also help to reduce wrinkles and signs of ageing.

- Naturally rich in Omega-6
- Neutral colour
- A rich source of vitamin E
- Easy to use in a manufacturing process
- Suitable for a wide range of product applications
- Non-GMO, made with traceable Finnish oats

Aurora Oat Oil is easily assimilated in the manufacture of cleansers, moisturisers and hair treatments to add protective hydration and vitamin E benefits for the skin and hair

Why not consider adding more oat power to your brands?
